ABOUT ME

Dynamic MERN stack developer with expertise in full-stack development, Node.js, and API integration. Proven ability to create responsive web applications and enhance functionality through innovative solutions. Motivated and adaptable MERN stack developer skilled in both front-end and back-end development. Known for problem-solving abilities and commitment to delivering high-quality applications that meet user needs. Innovative web developer with background in creating and optimizing websites. Skilled in coding, design, and user experience enhancement. Strengths include problem-solving, adaptability to new technologies, and effective communication with team members to drive project success.

EDUCATION

2023-2027

Amrita Viswa Vidyapeetham, Chennai

B.Tech CSE

Currently pursuing B.Tech 3rd year in Amrita Vishwa Vidhyapeetham, Chennai campus in Computer Science Engineering with a CGPA of 7.98

2021-2023

D.A.V Group of Schools

Intermediate

Completed my 11th and 12th standard in D.A.V school, Chennai and secured 98% in my 12th standard.

EXPERIENCE

- Developed dynamic web applications using JavaScript, Node.js, Express.js, EJS frameworks, and PostgreSQL.
- Maintained version control using Git for project collaboration and code management.
- Developed RESTful web services using Node.js and Express framework.
- Managed both back-end and front-end aspects of development process.
- Implemented responsive web design principles to ensure applications are website and mobile-friendly across various devices.
- Integrated third-party services and APIs, expanding application features and capabilities.
- Developed and maintained server-side applications using Node.js, enhancing application functionality and performance and also implemented web authentication using node.js, express.js and oAuth.
- Tested my projects using postman and developed more error free websites
- Built frontend website using html, react.jsx and tailwind css
